

## **Psychologist or Neuropsychologist**

Integrated Neuropsychological Services, Company Location Fayetteville, Arkansas Area

Integrated Neuropsychological Services, a fast-paced, innovative, and research-informed Neuropsychological clinic in Fayetteville, Arkansas, is seeking a licensed or license eligible Psychologist or Neuropsychologist who is interested in neurofeedback therapy and psychotherapy. An ideal candidate would be a self-motivated clinician, with preference given to clinicians who work with children and families, and who is interested in learning or has experience with neurofeedback therapy. Clinical duties include providing assessment and treatment within our innovative Neurobehavioral clinic, formal psychological assessment, neuropsychological testing, and providing psychotherapy. Full time or part time hours available.

Preference will be given to a BCIA certified professional or one who is willing to complete certification within 6 months.

Job Types: Full-time, Part-time
