Social Worker, Counselor, or Psychologist, licensed or easily licensed in Arizona. You will learn QEEG's, develop reports, the operation of various types of equipment including: 19 Channel Neuroguide and Loretta feedback. We work with Attention Deficit Hyperactivity Disorder and most other disorders including mood disorders, Obsessive Compulsive Disorder, Autism, Post-Concussion Syndrome and strokes, etc. Long term employment is a possibility, after one year paid residency.

Particular considerations are given for someone who is BCIA certified or willing to earn certification within six months.
