

Licensed Mental Health Professional (LCSW, LMSW)

Integrated Neuropsychological Services and Integrated Neuroscience Services is a fast-paced, innovative neuropsychological clinic with a mission to provide comprehensive, research-based neuropsychological services to the Northwest Arkansas community and surrounding areas. We endorse the clinician-scientist-practitioner model, which integrates research and empirical findings into direct clinical practice. At INPS, along with our sister company Integrated Neuroscience Services, we are actively involved in conducting, presenting, and publishing research, which informs the evaluations and interventions we provide to our patients.

INPS is seeking a licensed mental health therapist for neurofeedback therapy and psychotherapy. The ideal candidate is interested in the practice of Neurofeedback. We are looking for a dedicated, passionate clinician who is self-motivated, and works well within an interdisciplinary team.

Qualifications:

Minimum of master's degree in social work, psychology, or related human services field from an accredited college or university.

Must be currently licensed, or license eligible in the State of Arkansas. (LCSW, LMSW, Ph.D.).

Required Documents:

Cover Letter

Resume or CV

Contact Information: **execasst@integrated-neuro.cpm**

Psychologist or Neuropsychologist

Integrated Neuropsychological Services, a fast-paced, innovative, and research-informed Neuropsychological clinic in Fayetteville, Arkansas, is seeking a licensed or license eligible Psychologist or Neuropsychologist who is interested in neurofeedback therapy and psychotherapy. An ideal candidate would be a self-motivated clinician, with preference given to clinicians who work with children and families, and who is interested in learning or has experience with neurofeedback therapy. Clinical duties include providing assessment and treatment within our innovative Neurobehavioral clinic, formal psychological assessment, neuropsychological testing, and providing psychotherapy.

Qualifications:

Minimum of PhD or PsyD Degree in clinical psychology with an academic clinic background in neuropsychology from an accredited college or university

Must be currently licensed or licensed or license eligible in the State of Arkansas

Post Doc Candidates are welcome to apply
