

Lutherville, Maryland (Baltimore Area) immediate position available for a Registered Psychology Associate or eligible (Masters degree or Doctorate in Psychology). Job duties include neuropsychological testing and interpretation, QEEG and interpretation, Cognitive Rehabilitation, Psychotherapy, and of course plenty of neurofeedback. Certification by BCIA is expected or to be obtained within 1 year. Mentoring is available. This is preferably a full time position, though we would consider part-time in some scenarios. If the applicant has minimal experience, we would consider providing this position as an intern for 1 year (at most 2 years).

Compensation and benefits competitive for the position or internship.
