

## Clinical Psychologist

### Swingle Clinic, Vancouver, British Columbia

The Swingle Clinic in Vancouver, one of the original and leading Neurotherapy Clinics in North America, is currently seeking a Registered Psychologist for a full or part time Clinical Supervisor role. The ideal candidate will be:

- A doctoral level psychologist, registered or eligible for registration with the College of Psychologists of British Columbia
- Board Certified in Neurotherapy (BCN) preferred, or willing to obtain certification within 6 months of hire.
- Experience with Neurotherapy and Biofeedback treatment modalities desired, however we will train the right candidate.

#### Responsibilities:

- Direct treatment of clients including intake EEG assessment
- Provide and supervise Neurotherapeutic treatment, counselling and other intervention
- Review findings with clients, consult with other clinical staff
- Establish treatment plans, write protocols
- Supervise and monitor supporting staff (Neuro-technicians)
- Liaise with support and administration, maintain client files and generate internal and external client reports
- Contribute to R&D
- Adhere to the highest ethical standards of research and practice

To apply, please submit a cover letter and resume to: [officemanager@swingleclinic.com](mailto:officemanager@swingleclinic.com)

#### Salary:

\$120,000.00+ per year

**The Swingle Clinic** is one of the leading clinics providing neurotherapeutic treatments in North America, visited by more than 13,000 people per year. The Swingle Clinic is committed to employment equity and welcomes all applicants.
