

**Baylor Health Care System
Dallas, TX**

An opportunity exists to join a vibrant well established interdisciplinary pain team with Baylor Health Care System in Dallas to provide counseling and biofeedback training. Services are provided to persons with a wide variety of pain conditions, migraine, and other related conditions such as insomnia and non-epileptic seizures. Treatment is provided both through one-on-one services as well as a part of the interdisciplinary pain program. Location of service include the Baylor Center for Pain Management and the Baylor Comprehensive Headache Center in Dallas, TX.

Positions is salaried with full benefits. Requires licensure in state of Texas (LPC, LCSW, LMFT). Persons with BCIA certification or are willing to work towards BCIA certification in 6 months are preferred. Pain rehabilitation or work with medical populations is very desirable.

For more information, call Timothy Clark, Ph.D. 214/392-9951 or our recruiter, James Smyda, (972) 291-4573. James.Smyda@bswhealth.org
