Scottsdale, AZ 85260

Robert Gurnee - addclinicoffice@gmail.com

Social Worker, Counselor, or Psychologist. You will learn QEEG's develop reports, the operation of various types of equipment including: 19 Channel Neuroguide and Loretta feedback. We work with ADD and most other disorders including mood disorders, obsessive compulsive disorder, autism, post-concussion syndrome, strokes, etc. Long term employment is a possibility, often one year paid residency.

Particular considerations for someone who is BCIA certified or willing to earn certification within six months.
